Subject: Request for Mt. Hood Highway Grant Support Letters

Hi XXX - Just following up on my phone message.

ODOT is again applying for a Forest Highway grant for improvements to our variable message system on US 26-OR 35. We also want to install variable speed signs that can be used to advise drivers to slow down during bad weather. We believe these improvements could do a lot to reduce crashes up on the mountain and improve community livability

It would be great if you or someone from the Villages could write a letter of support for our application. We'd need the letter by January 4, 2012. I've attached a sample letter to get you started as well as copy of the draft application.

Please email a pdf of the letter, or fax to:

Kelly Brooks, Govt Liaison, ODOT R1 kelly.s.brooks@odot.state.or.us
Sonya Kazen, Sr. Planner, ODOT R1 sonya.b.kazen@odot.state.or.us
Our fax number is 503.731.8258.

Please let me know if you have any questions. Hopefully we'll both get to see this one happen.

Have a wonderful holiday season. - Sonya
